## Fastback® Model 20

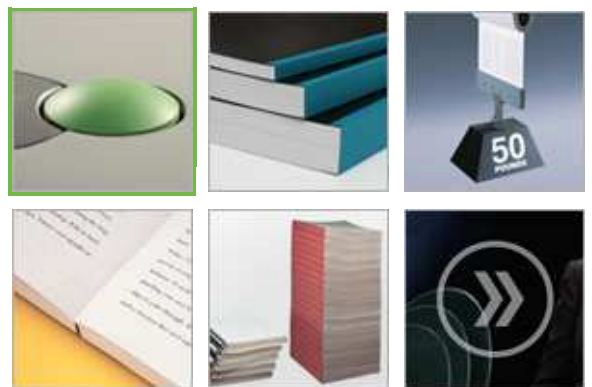

The perfect binding machine for anyone who needs a fast, full-featured machine capable of binding in large quantities.

[Features](#) [Success Stories](#) [Tech Specs](#)

## One Touch Function

Quick and easy. Just press the **green button** and the machine binds the book for you in 13-20 seconds, up to 350 sheets.

## Image Blank™

With the Image Blank, you can print graphics and text onto the strip directly from an inkjet printer. This means each of your bound documents can have a completely unique look and personalized messaging. You can print only what you need, when you need it. [>> Learn more](#)

## Document Binding

We rewrote the book on binding. No more punching and waiting, cumbersome plastic combs or wires! Wherever you work - from advertising to government, technology to finance - you can say goodbye to awkward punching and binding. The Fastback 20 uses a revolutionary thermal adhesive bind to create strong, beautiful tape binding. Now you can put together bound books and documents in seconds, for pocket change. [>> Learn more](#)

## Perfectback™ Binding

Let's say you want to create just a few paperback books. You'd have to send your job to a bindery with expensive equipment and a large glue vat. With our tabletop Fastback® 20, Scorer and Perfectback® strips, you can bind multiple short runs yourself, with no set up. Make perfectback books with ease and speed. >> [Learn more](#)

---

## Image Strip™

An Image Strip is a Powis thermal binding strip that has an image printed on it. This image can consist of photographs, vector art, and/or various color specifications. The Powis Image Strip represents a new level of binding customization. Now every document you bind can promote your brand, enhance your image, and ensure that each prospectus, manual, proposal or report that you produce is a cut above the competition. People will notice. >> [Learn more](#)

## Hardcover Presentations

Our Fastback Hardcover line is available in a variety of materials and colors with matching Foilfast Title Sheets for applying foil-printed artwork to your covers and spines. Endleaves are added for an even more polished finish. >> [Learn more](#)

---

## Photobooks™

The Fastback 20 binding machine is engineered to give you the strongest possible bind for glossy, coated papers. It produces binding that rivals sewing and wire-stitching in strength, but with much less expense and effort. The Fastback 20 uses the CP strip, and is ideal for binding photo books, yearbooks, art books, or other books printed on glossy paper. The other two components are the Splitter™ and Hardcover Guide™. >> [Learn more](#)

## ImageBack™ Hardcover

The Powis ImageBack™ Hardcovers and ImageBack™ Liners come with the adhesive already applied, so you never have to worry about messy glue application, leakage, glue build-up, or cleaning. Powis has done the complicated part of book assembly for you, so all you have to do is add your printed cover sheet. Use with the ImageBack Liners, and you can assemble books using the Fastback Hardcover Guide. >> [Learn more](#)
